

NEW PRODUCT

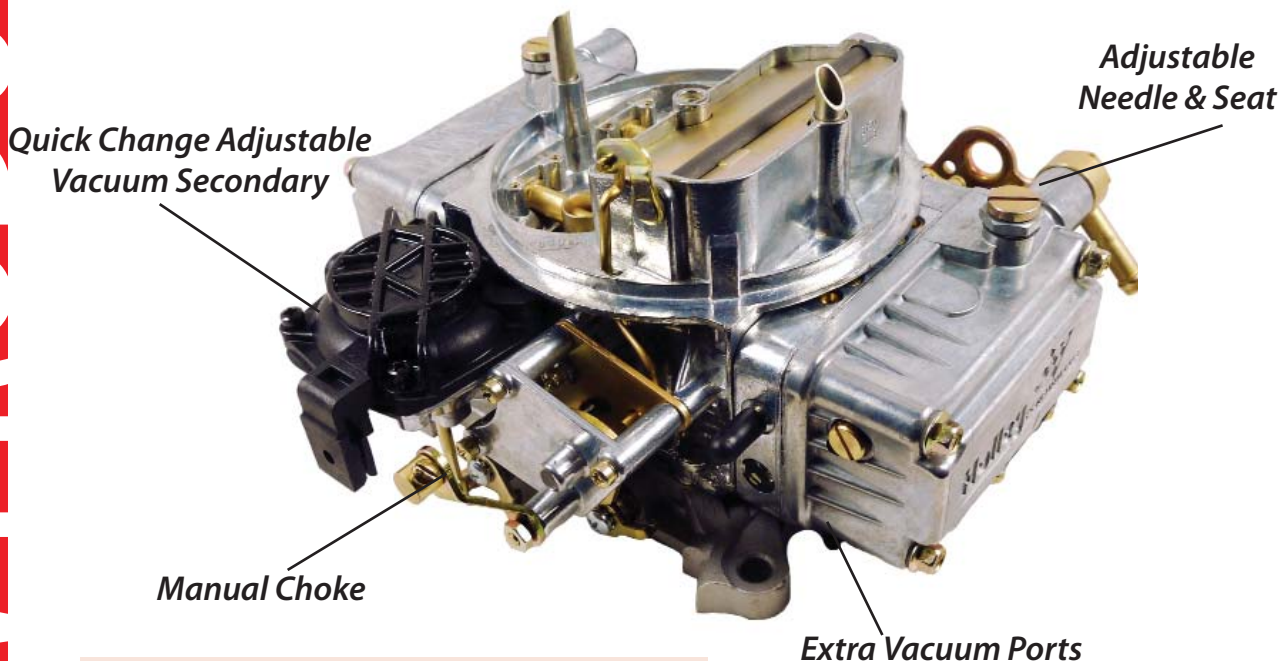

Holley®

470CFM

NEW

CARBURETOR

0-81571

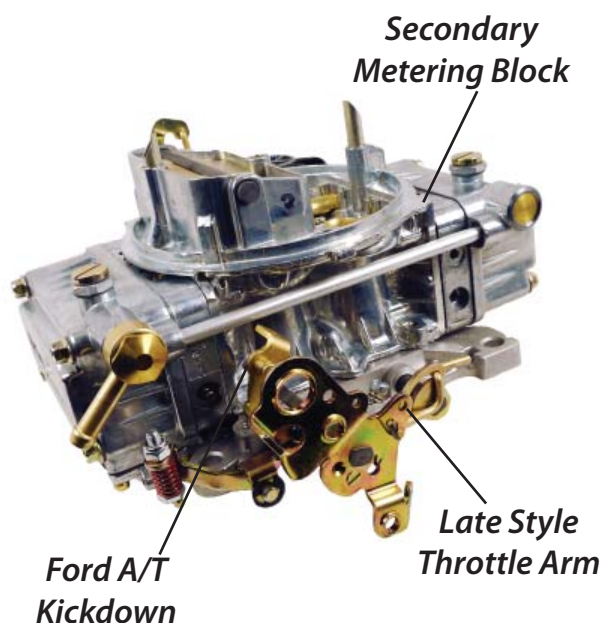

Square flange bolt pattern. Performance Calibrated. The Ultimate vacuum secondary street performance upgrade.

Specifically built for APD by Holley for the Australian Market, this 470 CFM carb has the same main body as an 0-1848, but with a range of additional features including: a manual choke, side-hung bowls with single banjo inlet for easy hookup, secondary block to allow easy jet changes, quick-change vac secondaries and vac ports on the base for PCV/distributor hookup.

- No Trouble® quick change vacuum secondaries allow use on wide variety of vehicles - Up to 6% more acceleration or 5% better fuel economy with a simple spring change (Springs Included).
- Single feed fuel inlet
- 1 timed (spark) port, 2 full vacuum, and 1 PCV port
- Ford A/T kickdown (Does not work with A.O.D. transmissions)
- Intended for street enthusiasts.
- Calibrated for monster low-end torque, awesome acceleration, & unmatched top-end horsepower.
- Bolt on & go design
- Manual choke
- Secondary metering block allows easy rear jet changes
- Adjustable needle & seats
- Ideal for smaller V8 engines from 253 cu.in. to 308 cu.in. and larger 6 cylinder engines

All of these features at a price significantly less than the 0-1848!
